

SCDI and Mainline are proud to present

THE STIMULANT HARM REDUCTION FIELD LAB in Hanoi, Vietnam.

The field lab seeks to share practical experiences on how to address harms associated with the use of meth-amphetamine across the Asian region

Join our webinar

Day: Wednesday 22 June 2021

Time: 2PM – 4PM (Hanoi time, UTC+7)

Languages: English and Vietnamese. Other languages (e.g. Bahasa Indonesia, Burmese, Filipino/Tagalog, Thai) available upon request

Register: <https://echo.zoom.us/meeting/register/tJludOusrTkjH9Ja6CAijqH61pb8RuIAUQa>

During the webinar

- UNODC provides a brief overview of the use of meth-amphetamine in the Asian region, and we will:
- present the Field Lab for stimulant harm reduction in Hanoi, Vietnam
- introduce stimulant harm reduction interventions to interested stakeholders across the Asian region
- disseminate lessons learned and best practices
- link community-based organisations from across the region and engage them in the Field Lab

This webinar is the first in a series of three: a second and third meeting take place on 23 and 30 June and aim to engage outreach workers and field staff who work with people who use meth-amphetamine.

The field lab and this webinar are supported by Open Society Foundations
